That's what teachers do (John Chrysostom)

[Ξένες γλώσσες / In English](#)

Image not found or type unknown

Those who want their words to have an effect on their audience shouldn't stop giving encouragement and advice on the same things, nor should they change the subject until they've seen that a previous exhortation has taken root properly in their souls. That's what teachers do; they don't go on to reading with the children until they've learned the letters properly.
