We have to answer (Elder Tadej Vitovničk)

[Ξένες γλώσσες / In English](#)

Image not found or type unknown

We criticize those politicians who are in power, but they're also our children. It's us, the older generation, who are to blame for not setting them a proper example. We're an image of generations past, and we didn't manage to learn much from them. Now it's we who have to answer. And we have to start with ourselves and not try to change other people.
