We're endowed (Saint Basil the Great)

[Ξένες γλώσσες / In English](#)

Image not found or type unknown

We came into existence from nothing. We were created in accordance with the image of our Creator. We've been endowed with intellect and knowledge, which give us the possibility of knowing God. And with these gifts, which we received from God at the time of our creation, we can gaze upon the beauty of creation and read it as if it were written in letters. In this way, we can understand God's wisdom and His providence towards all His creatures.
