/ Ρήματα ζωής

On earth no one is without sin. We are all sinners and guilty raising everyone a load of sins, passions, weaknesses, carelessness, which have borne our lives. We all have a criminal with a variety of sins, heavy, light, many, few, without exception, except God. Our entire lives constantly produces sins. We sin in thought, with the heart, with all your senses the physical and the spiritual soul. Think what a sin we produce! So everybody we wretched people we need forgiveness from God, from the cancellation of this entire production of sins.
