It's their business (Saint Iakovos Tsalikis)

[Ξένες γλώσσες](#) / [In English](#)

When we go to doctors for treatment, we don't tell them what to do. They know their job. All we do is tell them we're in pain and where. Truth is given to

us when we seek it humbly, as we seek a cure from a doctor. We can't order the truth, but we can ask that it be given to us, to be revealed to us. Because the truth is God, Whom we can't order, only ask from Him and love Him. Doctors know what you want when you visit them. All you can do is tell them that you're in pain and where it hurts. There is up to them. This is why the Holy Fathers tell us to pray like little children, who cry when they're in pain. And they show the place that's hurting.
