They hear inside themselves (Elder Iosif the Hesychast)

[Ξένες γλώσσες / In English](#)

When you want to know God's will, set your own aside, together with any other

thought or plan and, with great humility ask to become aware of it in your prayers. Then, whatever is formed or bears weight in your heart will be from God. Those who have greater boldness and practice in praying for this hear the instruction more clearly within themselves and become more careful in their lives, doing nothing without divine instruction.
