It's false and unjust (Elder Joseph of Vatopaidi)

[Ξένες γλώσσες / In English](#)

Slander is the most disgusting form of hatred and wickedness and the most painful wound for those who suffer it. Slander's the defensive weapon of inferiority.

Because it can't conceal its nakedness and meanness of spirit, it attempts to blacken those who are superior, in order to vindicate itself- or so it thinks. Since it's a false and unjust plot, it's the worst wound for those who suffer it.
