44. Having a child was only possible if a miracle was to happen

28. 7 2001

Larnaca, Cyprus

"I would like to inform you that my child, Maria, who is now three years old, was born after a miracle performed by our Lady.

We have been trying with the help of various doctors in Cyprus to have a child. My wife went through tests and operations but we had no joy for four years. We had become tired and disappointed, especially after the doctor assured us that we could only have a child if a miracle was going to happen.
