

Mental and Psychological Effects of Children's Cartoons

[Ξένες γλώσσες / In English](#)

Children have become much more interested in cartoons over

many years and it has become a primary action to some lives. Typically, children begin watching cartoons on television at an early age of six months, and by the age two or three children become enthusiastic viewers. This has become a problem because too many children are watching too much television and the shows that they are watching (even if they are cartoons) have become violent and addictive. The marketing of cartoons has become overpowering in the United States and so has the subliminal messaging. ([περισσότερα...](#))
