

Democracy vs Mythology: The Battle in Syntagma Square

[Ξένες γλώσσες / In English](#)

I have never been more desperate to explain and more hopeful for your understanding of any single fact than this: The protests in Greece concern all of you directly.

What is going on in Athens at the moment is resistance against an invasion; an invasion as brutal as that against Poland in 1939. The invading army wears suits instead of uniforms and holds laptops instead of guns, but make no mistake – the attack on our sovereignty is as violent and thorough. Private wealth interests are dictating policy to a sovereign nation, which is expressly and directly against its national interest. Ignore it at your peril. Say to yourselves, if you wish, that perhaps it will stop there. That perhaps the bailiffs will not go after the Portugal and Ireland next. And then Spain and the UK. But it is already beginning to happen. This is why you cannot afford to ignore these events. ([περισσότερα...](#))
